Plate Compactors

BPS1550AW Plate Compactor 89kg

The BPS1550AW is a heavy-duty 89kg petrol plate compactor for superior compaction of soil, gravel & asphalt in large areas.

- **Powerful petrol engine for superior compaction:** Delivers exceptional force for compacting large areas effectively.
- **Heavy-duty 89kg design:** Provides maximum compaction power for demanding applications.
- **Large base plate for increased coverage:** Compacts more area in each pass, boosting productivity.
- **Easy to operate:** Ensures user-friendly operation for efficient compaction work
- **Ideal for foundations, roads, and large civil projects:** Suitable for heavy-duty compaction tasks across various construction sites.

Specifications

- Model - BPS1550Aw
- Item No.- 5100061216
- Engine - Honda GX160
- Power - 4.8Hp
- Weight - 89kg
- Operating Width - 500mm
- Force - 15kN

The Wacker Neuson BPS1550AW is a powerful petrol-driven vibratory plate compactor ideal for heavy-duty compaction tasks in construction projects. This robust machine weighs 89kg and delivers exceptional centrifugal force for efficient compaction of soil, gravel, and asphalt over large areas. It's perfect for compacting sub-bases, backfill material, and trench work for foundations, roads, and large-scale civil engineering projects. The BPS1550AW features a large base plate for maximum coverage and easy operation, ensuring high productivity in compaction tasks.
