Internal Vibrators - High Frequency **IRFU45/230/10 45mm Head 10m Shaft Internal Vibrator**

The IRFU45/230/10 is a powerful internal vibrator with a long 10m shaft for reaching deep concrete pours and ensuring exceptional compaction. Maintenance is significantly reduced as there are no drive shafts or greasing required.

- 45mm diameter head for superior concrete compaction: Delivers exceptional compaction even in dense concrete.
- Extra-long 10 meter shaft for deep pours: Reaches the bottom of deep concrete pours for uniform consolidation.
- Powerful motor for efficient vibration: Creates strong vibrations to eliminate air pockets effectively.
- Durable construction for long-lasting performance: Built to endure tough construction environments.
- Ideal for deep concrete consolidation applications: Perfect for deep foundations, pile caps, and thick slabs.

Specifications

- Model - IRFU45/230/10
- Item No.- 5100008834
- Lead Length - 15 Meters
- Length - 10 Meters
- Voltage - 230v
- Head - 45mm

The IRFU45/230/10 internal vibrator is a professional tool designed specifically for deep concrete pours. Its large 45mm diameter head guarantees superior compaction throughout the concrete. The extra-long 10-meter shaft allows for effective consolidation even in the deepest concrete elements. This internal vibrator is ideal for large-scale construction projects with deep foundations, pile caps, and thick concrete slabs.
