## BTS635s 350mm 2 Stroke Power Saw

The BTS635s is a powerful gas-powered concrete saw for cutting concrete, asphalt, & masonry

- Powerful 2-stroke engine for demanding cuts: Handles tough concrete, asphalt, and masonry materials.
- Large 350mm blade for deep cuts in a single pass: Saves time and effort on deep cutting jobs.
- Gas-powered for portability and flexibility: Works anywhere on the job site without needing an outlet.
- Ideal for construction cutting applications: Perfect for expansion joints, doorways, windows, and trench cuts.
- Durable construction for long-lasting performance: Built to withstand heavy-duty use.

### Specifications

- Model - BTS635s 14"
- Item No.- 5100005408
- Power - 86cc
- Weight - 11kg
- Size - 14"/350mm
- Max depth - 128mm

The BTS635s power saw is a professional tool designed for deep cutting in concrete, asphalt, and masonry materials. Its 2-stroke engine provides ample power to handle tough jobs. The large 350mm diameter blade allows for deep cuts in a single pass, improving efficiency. This gas-powered saw is ideal for construction applications such as creating expansion joints, cutting doorways and windows, or making deep trench cuts.
