Concrete Vibrators - HMS Modular
SM2E Flexible Shaft 2 metre
- suits 25mm head only

The SM2E is a 2-meter flexible shaft for concrete vibrators with 25mm heads, reaching far and tight spaces in concrete pours.

- 2-meter length for extended reach and maneuverability: Accesses very hard-to-reach areas in concrete pours.
- Compatible with 25mm round nose vibrator heads: Works with specific concrete vibrator models.
- Flexible design for navigating tight spaces: Reaches difficult areas for improved consolidation.
- Easy to install for continued vibrator use: Keeps your concrete vibrator functioning smoothly.
- Ideal for deep concrete pours and complex rebar environments: Enables effective work in demanding applications.

Specifications

- Model - SM2E
- Item No.- 5100069204
- Length - 2 Meters
- Fits - H25 Only

The SM2E is a replacement part for concrete vibrators. This 2-meter flexible shaft is specifically designed to work with concrete vibrator heads that have a 25mm diameter round nose. Its extended length provides even greater maneuverability and access to very hard-to-reach areas during concrete consolidation applications, like deep pours, behind formwork, or around complex rebar configurations. The SM2E is easy to install and ensures continued functionality of your concrete vibrator for efficient and thorough concrete consolidation.
