Concrete Vibrators - HMS Modular
**H55 Vibrating Head 55mm
- round nose cap**

The H55 is a powerful concrete vibrator head (55mm cap) for efficient consolidation in deep concrete pours.

- Largest 55mm cap for deep concrete pours: Reaches deep into concrete for thorough consolidation.
- Replacement part for concrete vibrators: Compatible with various models.
- Powerful vibrations for effective compaction: Eliminates air bubbles even in thick layers.
- Easy to install for continued vibrator use: Ensures your concrete vibrator keeps functioning smoothly.
- Maximizes consolidation in deep concrete applications: Delivers exceptional results in demanding projects.

Specifications

- Model - H55
- Item No.- 5000006570
- Fits - S Shafts
- Head - 55mm

The H55 vibrating head is a heavy-duty replacement part for concrete vibrators used in construction. Featuring the largest diameter round nose cap (55mm) among H-series heads, it's ideal for efficient concrete consolidation in deep pours. The powerful vibrations ensure effective penetration and eliminate air bubbles throughout the concrete, even in thick layers. This easy-to-install replacement head ensures continued smooth operation of your concrete vibrator and maximizes consolidation effectiveness, especially for deep concrete work.
