Rammers

AS50e Battery Powered Rammer Skin

Wacker Neuson AS50e: Battery-powered rammer for emission-free compaction with power comparable to gas.

- Emission-free compaction: Ideal for indoor or environmentally conscious projects.
- Powerful performance: Delivers compaction force comparable to gasoline models.
- Lightweight and maneuverable: Easy to use in confined spaces.
- Low hand-arm vibration: Enhances operator comfort during extended use.
- Long battery life with easy swaps: Minimizes downtime and keeps you productive.

Specifications

- Model - AS50e - Skin
- Item No.- 5100053792
- Engine - 51V
- Power - 2.24kw
- Weight - 71kg
- Force - 16kN
- Foot Width - 280mm
- Stroke - 39mm

The Wacker Neuson AS50e is a powerful battery-powered rammer designed for eco-friendly compaction. It delivers performance comparable to gasoline models, consolidating various soil types with zero emissions. Perfect for indoor spaces or environmentally sensitive jobsites, the AS50e is lightweight and maneuverable for tight spaces. The universal handle improves climbing and reduces hand-arm vibration for operator comfort. A long-lasting battery and easy tool-free swaps keep you productive.
