all it takes!

Plate Compactors

BPU2540A

Reversible Plate Compactor 145kg

The Wacker Neuson BPU2540A is a versatile gas-powered reversible plate compactor for multiple jobs. It offers strong compaction, easy maneuverability, and is ideal for landscaping, trench work, and paving.

- Reversible Plate: Change compaction direction quickly for efficient work in trenches (Feature: Reversible design / Benefit: Saves time and effort).
- Compacts Many Materials: Handle loose soil, gravel, and pavers with one machine.
- Reliable Honda Engine: Get consistent power and reliable performance for professional results.
- Easy Transport: Built-in wheels for smooth movement around the jobsite saving time and reducing fatigue.

Specifications

- Model - BPU2540a
- Item No.- 5000008758
- Engine - Honda GX160
- Power - 4.8Hp
- Weight - 145kg
- Operating Width - 400mm
- Force - 25kN

The Wacker Neuson BPU2540A is a user-friendly reversible plate compactor powered by a reliable Honda engine. This versatile compactor delivers powerful centrifugal force to effectively compact soil, gravel, and asphalt for various applications. A key feature is its reversible design, allowing for compaction in both forward and reverse directions without turning the machine. This improves maneuverability in tight spaces like trenches and around foundations. The BPU2540A is equipped with wheels for easy transport around the jobsite and features an adjustable guide handle for operator comfort. This all-rounder is a valuable tool for contractors and landscapers.
