Internal Vibrators - High Frequency **IRFU45/230/05 45mm Head 5m Shaft Internal Vibrator**

The IRFU45/230/05 is a high-power internal vibrator with a large 45mm head for superior concrete consolidation in deep pours. Maintenance is significantly reduced as there are no drive shafts or greasing required.

- 45mm diameter head for superior concrete compaction: Compacts even hard-to-reach concrete effectively.
- 5 meter long shaft for deep penetration: Reaches deep into concrete for uniform consolidation throughout.
- Powerful motor for efficient vibration: Creates strong vibrations to eliminate air pockets quickly.
- Durable construction for long-lasting performance: Built to withstand tough construction environments.
- Ideal for heavy-duty concrete consolidation applications: Perfect for large pours and demanding jobs.

Specifications

- Model - IRFU45/230/05
- Item No.- 5000610024
- Lead Length - 15 Meters
- Length - 5 Meters
- Voltage - 230v
- Head - 45mm

The IRFU45/230/05 internal vibrator is a heavy-duty tool designed for professional concrete consolidation. Its large 45mm diameter head ensures exceptional compaction in even the most challenging pours. The 5-meter long shaft allows for deep penetration into concrete elements, guaranteeing uniform consolidation throughout. This internal vibrator is ideal for large-scale construction projects, precast concrete applications, and demanding concrete consolidation tasks.
