Internal Vibrators - High Frequency **IRFU58/230/05 58mm Head 5m Shaft Internal Vibrator**

The IRFU58/230/05 is a heavy-duty internal vibrator with a large 58mm head for superior concrete consolidation in medium to large pours. Maintenance is significantly reduced as there are no drive shafts or greasing required.

- 58mm diameter head for superior concrete compaction: Ensures thorough compaction, even in dense concrete mixes.
- 5 meter long shaft for effective reach: Reaches throughout the concrete to eliminate air pockets.
- Powerful motor for efficient vibration: Creates strong vibrations to effectively eliminate air voids.
- Durable construction for long-lasting performance: Built to withstand tough jobsite conditions.
- Ideal for heavy-duty concrete consolidation applications: Perfect for precast concrete, mass pours and other demanding jobs.

Specifications

- Model - IRFU58/230/05
- Item No.- 5000610007
- Lead Length - 15 Meters
- Length - 5 Meters
- Voltage - 230v
- Head - 58mm

The IRFU58/230/05 internal vibrator is a powerful tool designed for professional concrete contractors. Its extra-large 58mm diameter head delivers exceptional compaction in even the most challenging concrete pours. The 5-meter long shaft allows for effective consolidation throughout the concrete. This internal vibrator is ideal for precast concrete applications, mass concrete pours, and demanding concrete consolidation tasks.
