Rammers

BS30-2 2 Stroke Rammer 41kg

Wacker Neuson BS30-2: Lightweight (41kg) 2-stroke rammer for efficient soil compaction in trenches.

- Lightweight design (41kg): Easy to transport and maneuver, especially in trenches.
- Powerful 2-stroke engine: Delivers excellent compaction performance for efficient work.
- Operates at any angle: Ideal for confined spaces and working in trenches.
- Durable construction: Built to withstand the demands of tough jobsites.
- Strong compaction force: Ensures effective consolidation of various soil types.

Specifications

- Model - BS30
- Item No.- 5100037146
- Engine - Wacker WM80
- Power - 2.2Hp
- Weight - 30kg
- Force - 10kN
- Foot Width - 150mm
- Stroke - 42mm

The Wacker Neuson BS30-2 is a lightweight and powerful 2-stroke engine rammer, ideal for efficient compaction of soil in trenches and confined spaces. Weighing only 41kg, it's easy to maneuver and transport around the jobsite. The 2-stroke engine allows for operation at any angle, even tilted, for versatility in tight spaces. The BS30-2 delivers strong compaction force for effective consolidation of various soils.
