## BS68-4Ab 4 stroke Rammer 68 kg

Wacker Neuson BS68-4Ab: Powerful 4-stroke vibratory rammer for efficient soil compaction (68kg). EquipTrac bluetooth beacon fitted as a standard for recording machine run time and maintenance intervals

- Powerful compaction force: Delivers excellent results for tough jobs.
- Reliable 4-stroke engine: Ensures clean operation and consistent performance.
- User-friendly design: Offers smooth operation for ease of use.
- Durable construction: Built to last on demanding jobsites.
- EquipTrac bluetooth beacon fitted as a standard for recording machine run time and maintenance intervals

### Specifications

- Model - BS68-4Ab
- Item No.- 5100061970
- Engine - Honda GXR121
- Power - 3.6Hp
- Weight - 70kg
- Force - 19kN
- Foot Width - 280mm
- Stroke - 63mm

The Wacker Neuson BS68-4Ab is a heavy-duty vibratory rammer designed for efficient soil compaction on demanding jobsites. This 68kg rammer features a reliable 4-stroke engine for clean operation and exceptional compaction force. The user-friendly design ensures smooth operation, while the durable construction is built to withstand tough working conditions. The BS68-4Ab is ideal for compacting trenches, backfill material, and foundations.
