

**WACKER  
NEUSON**  
*all it takes!*

## Plate Compactors **MP15 Plate Compactor**

The Wacker Neuson MP15 is a compact and powerful petrol vibratory plate compactor, ideal for tight spaces. It delivers high performance at an affordable price, perfect for smaller projects.

- **Lightweight and maneuverable:** Easy to operate in tight spaces due to its compact design.
- **Powerful compaction force:** Ensures effective compaction of soil, gravel, and sand.
- **Ideal for confined spaces:** Perfect for trenches, backfill applications, and around foundations.
- **Easy to transport and store:** Convenient for transportation and storage due to its lightweight design.
- **User-friendly design:** Simple to operate for ease of use.

### Specifications

- Model - MP15
- Item No.- 5100054291
- Engine - Loncin-G210F
- Power - 5.9Hp
- Weight - 87kg
- Operating Width - 500mm
- Force - 15kN

The Wacker Neuson MP15 is a user-friendly vibratory plate compactor designed for efficient compaction of mixed soils, gravel, and asphalt in confined areas like trenches and around foundations. Its compact size allows for excellent maneuverability, even on uneven terrain. The MP15 packs a punch with its centrifugal force, ensuring effective compaction. This petrol-powered model features a vibration-damped handle for reduced operator fatigue during extended use. The standard water tank helps with dust suppression for a cleaner work environment.
