Rammers

## AS30e Battery Powered Rammer Skin

Wacker Neuson AS30e: World's first battery-powered rammer for emission-free compaction.

- **Zero-emission operation:** The world's first, ideal for indoor or environmentally conscious projects.
- **Lightweight and maneuverable:** Easy to handle and use in confined spaces.
- **Durable construction:** Built to last for long-term use on jobsites.
- **Removable battery:** Ensures continuous operation with swappable batteries.
- **Efficient compaction:** Delivers excellent results for various soil types.

### Specifications

- Model - AS30e - Skin
- Item No.- 5100026851
- Engine - 51V
- Power - 1.34kw
- Weight - 32kg
- Force - 10kN
- Foot Width - 150mm
- Stroke - 40mm

The Wacker Neuson AS30e is a groundbreaking battery-powered rammer, the first of its kind in the world. This eco-friendly solution delivers efficient compaction of various soil types with zero emissions, making it ideal for indoor applications or environmentally sensitive jobsites. It's lightweight and maneuverable, perfect for working in tight spaces. The durable design and removable battery ensure continuous operation throughout the workday.
