External Vibrators

AR52/6/042 6000rpm 42v External Vibrator

The AR52/6/042 is a high-speed, cordless external vibrator for fast concrete consolidation on job sites.

- Hi-frequency speed of 6000 RPM for extremely fast consolidation: Saves significant time on concrete pours.
- Powerful vibrations for effective compaction: Improves concrete strength and durability.
- Ideal for various concrete consolidation applications: Versatile tool for a wide range of concrete projects.
- Suitable for precast concrete, mass pours, and fast consolidation: Perfect for jobs requiring speed and maneuverability.
-

Specifications

- Model - AR52/6/042
- Item No.- 5100004253
- Weight - 17.9kg
- Force - 13.7kN
- Voltage - 42v
- RPM - 6000rpm
- Frequency - 150Hz

The AR52/6/042 external vibrator is a professional tool designed for fast and efficient concrete consolidation. Its hi-frequency speed of 6000 RPM ensures rapid elimination of air bubbles, while the 42V power allows for flexible use on job sites. This cordless external vibrator is ideal for precast concrete applications, mass concrete pours, and general concrete consolidation tasks where speed and mobility are important.
