Internal Vibrators - High Frequency **IRFU58/230/10 58mm Head 10m Shaft Internal Vibrator**

The IRFU58/230/10 is a powerful internal vibrator with a large head for deep concrete pours and a long shaft for maximum reach. Maintenance is significantly reduced as there are no drive shafts or greasing required.

- Large 58mm diameter head for superior concrete compaction: Delivers exceptional compaction even in dense concrete.
- Extra-long 10 meter shaft for deep reach: Reaches the bottoms of deep pours for uniform consolidation.
- Powerful motor for efficient vibration: Creates strong vibrations to eliminate air pockets effectively.
- Durable construction for long-lasting performance: Built to endure tough construction environments.
- Ideal for deep concrete consolidation applications: Perfect for deep foundations, pile caps, and thick slabs.

Specifications

- Model - IRFU58/230/10
- Item No.- 5100008835
- Lead Length - 15 Meters
- Length - 10 Meters
- Voltage - 230v
- Head - 58mm

The IRFU58/230/10 internal vibrator is a heavy-duty tool designed for efficient concrete consolidation in deep pours. Its large 58mm diameter head ensures exceptional compaction throughout the concrete. The impressive 10-meter long shaft allows for reaching the bottoms of even the deepest concrete pours. This internal vibrator is ideal for large-scale construction projects with deep foundations, pile caps, and thick concrete slabs.
