Concrete Vibrators - HMS Modular
**SM7S Flexible Shaft 7 metre
- suits 35mm to 65mm head**

The SM7S is an ultra-long, 7-meter flexible shaft for concrete vibrators (35-65mm heads) for unmatched reach in deep pours.

- Unequaled 7-meter reach for exceptional concrete pour depth: Reaches unmatched depths in concrete for superior consolidation.
- Compatible with concrete vibrator heads from 35mm to 65mm diameter: Works with a wide variety of concrete vibrator models.
- Flexible design for navigating tight spaces and around obstacles: Maneuvers around rebar and formwork for improved consolidation.
- Easy to install for continued vibrator use: Maintains smooth operation of your concrete vibrator.
- Ideal for deep pours, complex rebar, large slabs, and demanding applications: Enables effective work in the most difficult construction projects.

Specifications

- Model - SM7S
- Item No.- 5100005712
- Length - 7 Meters
- Fits - H35 Above

The SM7S is a replacement part for concrete vibrators. This exceptional 7-meter flexible shaft is specifically designed to work with concrete vibrator heads that have a diameter between 35mm and 65mm. Its unmatched length provides superior maneuverability and access to the deepest concrete pours and extremely hard-to-reach areas during concrete consolidation applications. This makes it perfect for reaching areas behind deep formwork, complex rebar structures, or large concrete foundations. The SM7S is easy to install and ensures continued functionality of your concrete vibrator for efficient and thorough concrete consolidation in even the most challenging jobs.
