Concrete Vibrators - HMS Modular  
**SM9S Flexible Shaft 9 metre**  
**- suits 35mm to 65mm head**

The SM9S is an exceptional 9-meter flexible shaft for concrete vibrators (35-65mm heads), ideal for reaching the absolute furthest depths in concrete pours.

- Unequaled 9-meter reach for unmatched depth in concrete pours: Reaches extraordinary depths for complete consolidation.
- Compatible with concrete vibrator heads from 35mm to 65mm diameter: Works with various concrete vibrator models.
- Flexible design for navigating tight spaces and around obstacles: Maneuvers around rebar and formwork for improved consolidation.
- Easy to install for continued vibrator use: Maintains smooth operation of your concrete vibrator.
- Ideal for deep pours, complex rebar, large slabs, and extreme-reach applications: Enables effective work in the most demanding construction projects.

Specifications

- Model - SM9S
- Item No.- 5100005713
- Length - 9 Meters
- Fits - H35 Above

The SM9S is a replacement part for concrete vibrators. This unmatched 9-meter flexible shaft is specifically designed to work with concrete vibrator heads that have a diameter between 35mm and 65mm. Its extraordinary length provides superior maneuverability and access to the absolute deepest concrete pours and the most hard-to-reach areas during concrete consolidation applications. This makes it perfect for reaching behind deep formwork, complex rebar structures, or large concrete foundations. The SM9S is easy to install and ensures continued functionality of your concrete vibrator for efficient and thorough concrete consolidation in even the most challenging jobs.
