The Wacker Neuson BH65 breaker is a heavy-duty professional tool for tough demolition projects. This petrol breaker is known for its high single-impact force of 65 joules, making it one of the most powerful breakers in its class. Despite this power, the BH65 delivers low hand-arm vibrations, improving operator comfort during extended use. The 2-stroke engine ensures easy starting and operation, while the robust design of 26kg ensures durability on demanding jobs. This breaker is ideal for construction applications such as breaking up floors, walls, and foundations.
