PSR1 500TA Submersible Pump

Wacker Neuson PSR1 500TA: Efficient dirty water pump for fast removal in low water levels.

- **Efficient dirty water handling:** Effectively pumps dirty water from flooded basements, trenches, and excavations.
- **Starts in low water levels:** Can begin operation even with minimal water, ideal for various tasks.
- **Submersible design:** Operates effectively in submerged environments.
- **Lightweight and portable:** Easy to transport and maneuver on the jobsite.
- **User-friendly design:** Simple to operate for ease of use.

Specifications

- Model - PSR1 500TA
- Item No.- 6100040509
- Power - 750W
- Weight - 14kg
- Length - 15m
- Voltage - 230v
- Type - Puddle
- Size - 1"/25mm
- Flow - 310L/min
- Float switch - W/Out

The Wacker Neuson PSR1 500TA is a submersible trash pump designed for efficient dirty water removal, particularly in applications with low water levels. It's ideal for dewatering flooded basements, trenches, and excavations. The pump can even start operating when primed through the discharge port, making it convenient for various tasks. Its lightweight and portable design ensures easy transportation and use on the jobsite.
