BFS1350 20" Petrol Floor Saw

The BFS1350 is a powerful gas-powered concrete saw for deep cutting in concrete, asphalt, & masonry.

- Powerful petrol engine for ultra-deep cuts: Handles even the toughest concrete, asphalt, and masonry materials.
- Large 20-inch blade for exceptional cutting depth: Makes deep cuts in a single pass, saving time and effort.
- Gas-powered for portability and flexibility: Work anywhere on the job site without limitations of a cord.
- Ideal for deep cutting applications in concrete: Perfect for expansion joints, and utility trenches.
- Durable construction for demanding jobs: Built to withstand heavy-duty use on construction sites.

Specifications

- Model - Floor Saw BFS1350 20" Petrol
- Item No.- 5100054576
- Power - 8.7 KW
- Weight - 94 kg
- Operating Width - 575 mm
- Max depth - 195 mm

The BFS1350 floor saw is a heavy-duty professional tool designed for extra deep cutting in concrete, asphalt, and masonry materials. Its powerful petrol engine provides ample power to handle the toughest jobs. The large 20-inch diameter blade allows for exceptionally deep cuts in a single pass, maximizing efficiency. This gas-powered saw is ideal for construction applications such as creating deep expansion joints or making deep trench cuts for utilities.
