Concrete Vibrators - HMS Modular
SM4E Flexible Shaft 4 metre
- suits 25mm head only

The SM4E is a long, 4-meter flexible shaft for concrete vibrators with 25mm heads, ideal for deep concrete pours and hard-to-reach areas.

- Extra-long 4-meter length for unmatched reach: Accesses incredibly deep concrete pours and difficult areas.
- Compatible with 25mm round nose vibrator heads: Works with specific concrete vibrator models.
- Flexible design for navigating tight spaces: Maneuvers around rebar and formwork for improved consolidation.
- Easy to install for continued vibrator use: Maintains smooth operation of your concrete vibrator.
- Ideal for deep pours, complex rebar, and hard-to-reach areas: Enables effective work in demanding construction projects.

Specifications

- Model - SM4E
- Item No.- 5100005705
- Length - 4 Meters
- Fits - H25 Only

The SM4E is a replacement part for concrete vibrators. This extended 4-meter flexible shaft is specifically designed to work with concrete vibrator heads that have a 25mm diameter round nose. Its exceptional length provides unmatched maneuverability and access to very deep concrete pours and extremely hard-to-reach areas during concrete consolidation applications. This makes it perfect for complex rebar structures, behind formwork, or deep foundations. The SM4E is easy to install and ensures continued functionality of your concrete vibrator for efficient and thorough concrete consolidation in even the most challenging jobs.
