

**WACKER  
NEUSON**  
*all it takes!*

## Plate Compactors **MP12 Plate Compactor**

The Wacker Neuson MP12 is a gas-powered vibratory plate compactor for professional use on soil, gravel, and asphalt. It's compact, maneuverable, and delivers powerful compaction force.

- **Powerful Compaction Force:** Compacts soil, gravel, and asphalt quickly and efficiently.
- **Compact Design:** Maneuvers easily in tight spaces and around obstacles.
- **Durable Construction:** Built to last for years of demanding use on jobsites.
- **Vibration-Damped Handle:** Reduces operator fatigue for increased comfort during long shifts.
- **Easy to Operate:** Simple controls make the MP12 user-friendly for construction professionals.

### Specifications

- Model - MP12
- Item No.- 5000408433
- Engine - Loncin-G210F
- Power - 5.9Hp
- Weight - 65kg
- Operating Width - 350mm
- Force - 11kN

The Wacker Neuson MP12 is a heavy-duty vibratory plate compactor designed for tough jobs on construction sites. Its powerful engine delivers strong compaction force to efficiently compress soil, gravel, and asphalt. The MP12's compact size allows for easy maneuvering in tight spaces, like trenches or around foundations. The vibration-damped guide handle reduces operator fatigue during long working hours. With its durable build and reliable performance, the Wacker Neuson MP12 is a valuable asset for any professional contractor.
