Concrete Vibrators - HMS Modular

## H25 Vibrating Head 25mm - round nose cap

The H25 is a replacement vibrating head with a 25mm round nose cap for compacting concrete during construction.

- Replacement part for concrete vibrators: Compatible with various concrete vibrator models.
- 25mm round nose cap for tight spaces: Reaches concrete in confined areas or around rebar.
- Effective vibration for eliminating air bubbles: Improves concrete strength and durability.
- Easy to install for continued vibrator use: Maintains the functionality of your concrete vibrator.
- Ensures a strong, uniform concrete finish: Delivers high-quality concrete consolidation.

### Specifications

- Model - H25
- Item No.- 5000006567
- Fits - E Shafts
- Head - 25mm

The H25 vibrating head is a replacement part for vibrators used in construction applications. It features a compact size and a 25mm diameter round nose cap, making it ideal for consolidating concrete in tight spaces or around rebar. The H25 vibrates effectively to eliminate air bubbles and ensure a strong, uniform concrete finish. This replacement head is easy to install and ensures continued smooth operation of your concrete vibrator.
