Concrete Vibrators - HMS Modular
**SM3S Flexible Shaft 3 metre
- suits 35mm to 65mm head**

The SM3S is a 3-meter flexible shaft for concrete vibrators (35-65mm heads), ideal for maximum reach in concrete consolidation.

- 3 meter length for maximum reach in concrete pours:
Reaches very deep areas and farthest corners for complete consolidation.
- Compatible with concrete vibrator heads from 35mm to 65mm diameter: Works with a wide range of concrete vibrator models.
- Flexible design for navigating tight spaces and around obstacles:
Maneuvers around rebar and formwork for improved consolidation.
- Easy to install for continued vibrator use:
Maintains smooth operation of your concrete vibrator.
- Ideal for deep pours, complex rebar, large slabs, and hard-to-reach areas:
Enables effective work in demanding construction projects.

Specifications

- Model - SM3S
- Item No.- 5100005709
- Length - 3 Meters
- Fits - H35 Above

The SM3S is a replacement part for concrete vibrators. This 3-meter flexible shaft is specifically designed to work with concrete vibrator heads that have a diameter between 35mm and 65mm. Its extended length provides maximum maneuverability and access to even the most hard-to-reach areas during concrete consolidation applications. This makes it perfect for deep pours, complex rebar structures, behind formwork, or large concrete slabs. The SM3S is easy to install and ensures continued functionality of your concrete vibrator for efficient and thorough concrete consolidation in even the most challenging jobs.
