RTLx-SC3 Trench Roller Remote Control 3Eye 820mm Wide Diesel

Wacker Neuson RTLx-SC3:
Remote-controlled trench roller (560 mm - 820mm)
for safe, efficient compaction.

- Remote control operation: Work safely from a distance away from dust, vibration, and fumes.
- 3Eye technology: Enhances visibility for accurate and efficient compaction.
- Ideal for confined spaces: 560 mm - 820mm width allows for effective compaction in trenches.
- Efficient compaction: Delivers excellent results for soil, gravel, and asphalt.
- Durable construction: Built to withstand tough jobsites.

Specifications

- Model - RTLx-SC3 Trench Roller
- Item No.- 5100067147
- Engine - Kohler KDW1003
- Power - 19.8Hp
- Weight - 1,465kg
- Operating Width - 560mm/820mm
- Force - 68.4kN

The Wacker Neuson RTLx-SC3 is a robust remote-controlled trench roller designed for efficient compaction of various soil types, especially in narrow trenches and confined spaces. Its remote control operation enhances safety and operator comfort, while the 3Eye camera system provides excellent visibility for precise maneuvering. The RTLx-SC3 is ideal for compacting trenches, backfill, and sub-base materials on construction sites, with a working width of 820mm.
