Plate Compactors

BPS1135Aw Plate Compactor 63kg

The BPS1135Aw is a powerful 63kg petrol plate compactor for efficient compaction of soil, gravel & asphalt in confined spaces.

- Powerful petrol engine for effective compaction: Delivers strong force for compacting various materials.
- 63kg weight for efficient compaction: Provides optimal force for a variety of applications.
- Easy to operate and maneuver: Ideal for use in tight spaces around obstacles.
- Large water tank for dust suppression: Minimizes dust during operation for improved visibility.
- Suitable for foundations, driveways, landscaping, and trench work: Versatile tool for various compaction tasks.

Specifications

- Model - BPS1135Aw
- Item No.- 5100059657
- Engine - Honda GX120
- Power - 3.2Hp
- Weight - 63kg
- Operating Width - 350mm
- Force - 11kN

The Wacker Neuson BPS1135Aw is a gasoline-powered vibratory plate compactor designed for efficient compaction of various materials in construction projects, particularly in confined areas. This 63kg machine delivers strong centrifugal force for effective compaction of soil, gravel, and asphalt applications. It's ideal for compacting sub-bases, backfill material, and trench work around foundations, driveways, and landscaping projects. The BPS1135Aw features a tapered bottom and edges for improved maneuverability and a large water tank for dust suppression during operation.
