Plate Compactors

## APS1550we Plate Compactor 82kg Battery Powered Skin

The Wacker Neuson APS1550we is a cordless vibratory compactor plate for compacting soil, gravel, and asphalt. It's lightweight, powerful, and maneuverable, perfect for small to medium jobs. Hassle-free maintenance with our direct drive motor, which eliminates the need for belts or clutches.

- **Cordless Convenience:** Work freely without the hassle of extension cords making it easier for maneuverability on the jobsite.
- **Lightweight Design:** Easily transport and maneuver the compactor, even in tight spaces reducing fatigue and makes it easier to use.
- **Powerful Performance and simple maintenance:** Compacts soil, gravel, and asphalt efficiently and gets the job done quickly. With hassle-free maintenance with our direct drive motor, which eliminates the need for belts or clutches.
- **Long Runtime:** The lithium-ion battery delivers extended operation on a single charge and less downtime for recharging.
- **Integrated Water Tank:** Helps suppress dust for a cleaner, more pleasant work environment improving air quality and visibility.

### Specifications

- Model - APS1550we - Skin
- Item No.- 5100061220
- Weight - 82kg
- Operating Width - 500mm
- Force - 15kN

The Wacker Neuson APS1550we is a battery-powered vibratory compactor plate designed for compacting soil, gravel, and asphalt in trenches, around foundations, and other confined spaces. Weighing only 82kg, it's easy to transport and maneuver, even on uneven terrain. The powerful lithium-ion battery delivers long runtime and eliminates the need for extension cords. An integrated water tank helps suppress dust for a cleaner working environment. This skin-only model requires a compatible Wacker Neuson battery and charger (sold separately).
