Plate Compactors

BPS1030Aw Plate Compactor 59kg

The BPS1030Aw is a powerful 59kg petrol Plate Compactor for efficient compaction of soil, gravel, and asphalt.

- Powerful petrol engine for effective compaction: Delivers strong centrifugal force for compacting soil, gravel, and asphalt.
- 59kg weight for efficient compaction: Provides optimal force for a wide range of compaction applications.
- Easy to operate and maneuver: Ensures user-friendly operation for various compaction tasks.
- Ideal for compacting sub-bases, backfill, and trench work: Versatile tool for compacting different materials in construction projects.
- Suitable for foundations, driveways, and landscaping projects: Compacts soil and gravel for strong and stable bases.

Specifications

- Model - BPS1030Aw
- Item No.- 5100058916
- Engine - Honda GX120
- Power - 3.2Hp
- Weight - 56kg
- Operating Width - 300mm
- Force - 10kN

The BPS1030Aw is a petrol-powered Plate Compactor compactor designed for efficient compaction of various materials in construction projects. This powerful machine weighs 59kg and delivers strong centrifugal force for effective compaction of soil, gravel, and asphalt applications. It's ideal for compacting sub-bases, backfill material, and trench work. The BPS1030Aw is easy to operate and maneuver, making it suitable for various compaction tasks around foundations, driveways, and landscaping projects.
